Dear Dr. Paintsil,

We, the Editors, are pleased to announce that Bentham Science Publishers has agreed to publish the upcoming book titled 'Recent approaches in the development of Anti-infective Agents', in their book series titled: "Frontiers in Anti-infective Agents". This book series focuses on current and new antibiotics and vaccines. The series highlights the challenges faced by healthcare workers around the globe when facing epidemics caused by life-threatening pathogens along with the measures being taken to combat these challenges.

Keeping in view your eminent contributions in this field, we, the editors, are pleased to invite you to contribute a comprehensive chapter highlighting recent important developments in the field. The aim of the book is to highlight the contributions of eminent scientists in this field as well as to provide readers with comprehensive accounts of recent developments as perceived by the authors. It is expected that the book will be very well received in international circles since it will present important reviews of current interest in this hot area. This volume of the series is due in the **first quarter of 2021**.

If you accept this invitation, which we hope you do, then kindly provide a one-page abstract of your proposed chapter, names of your co-authors (if any), your updated CV and complete list of publications. We will then arrange for detailed instructions for the preparation of the manuscript to be supplied to you by Bentham Science Publishers. Your chapter should be of approximately 40-60 pages in MS Word format.

Chapter authors will receive free online access to the book volume in which their chapter has been published. Moreover, chapter authors will also be allowed a 25 % discount on the print edition of the book.

Please note that since all manuscripts are subject to peer review; the submission of the chapter manuscript does not guarantee its acceptance for publication.

The complete chapter must be submitted latest by September 30th, 2020.

Greatly looking forward to hearing from you.

With kind regards,

Dr Parvesh Singh

School of Chemistry and Physics University of Kwa-Zulu Natal (UKZN) Westville campus, Durban, South Africa

Dr Vipan Kumar

Department of Chemistry Guru Nanak Dev University, Amritsar, India

Dr Rajshekhar Karpoormath

Department of Pharmaceutical Chemistry University of Kwa-Zulu Natal (UKZN) Westville Campus, Durban, South Africa.

An exciting new journal entitled "Coronaviruses" is being launched by Bentham Science under the Editorship of Prof. Di Liu, Wuhan Institute of Virology, China, with Prof. Ferid Murad (Nobel Laureate, Stanford, USA) & Prof. Atta-ur-Rahman, FRS (UNESCO Science Laureate) as Senior Honorary Advisors. For further information please visit the website.
